

# ALCATEL-LUCENT GREENWICH / THE TELEGRAPH WORKS

## LINEAR PARK A PUBLICLY ACCESSIBLE RECREATIONAL SPACE

View of Linear Park

The planning application incorporates proposals for an exciting, publicly accessible amenity space located to the north of the existing site.

Initial ideas for the park include elements of landscaping that provide movement and sound and allude to the river beyond, whilst also incorporating a variety of play equipment that will appeal to children of all ages - a place to play or just sit and enjoy.

We would like to hear your views on what this space could be used for, what kind of play equipment you would like to see provided and if sports and activity areas should be included.

If you would like to get involved, you can complete a feedback form before you leave.

**Modular Equipment**  
Ages 5 - 11
